Why Mustang Security?

Nationwide Industry Experience

- Experience in providing security services across at embassies, foreign missions and UN compounds
- Our service experience includes a diverse array of industries such as oil and gas, energy, pharmaceuticals, textile, cement, banks and financial institutions, key telecom and wireless networks and FMCGs
- Mustang Security caters to high net worth individuals and residential estates

Personalized Service

- Dedicated multi-tiered operational structures at Mustang Security allows it to focus on delivering customized services to all its customers.
- To ensure operational excellence, regular inspection & supervision are conducted, and clients are given periodical updates.

Retention Program

- An extensive recruitment procedure is in place where quality applicants are selected and processed
- A specialized and extensive professional pre-deployment and on-job training program for all staff is mandatory
- Mustang security ensures employee loyalty by providing above-industry benefits such as accommodation, transport, and "Group Accidental Death and Disability Policy"
- Employee career development and recognition is an ongoing process

Products & Services

Security Guard Services

- Help clients mitigate business and security threats by securing their premises
- The guards are carefully screened, highly trained and continuously supervised by their area managers

VIP security and Executive Protection

- Nationwide experience of working with organizations enables Mustang Security to provide high and low-profile solutions for static sites as well as for executives on the move
- Mustang retains the ability to install CCTV cameras and alarm systems at the clients' request

Each team has the following equipment as standard issue:

-  Full personal protective equipment for all team members
-  Firearms relevant to the task
-  Radio communication; a wireless base station can be provided at the clients' location
-  Vehicles that enable team mobility as and when required
-  Breakdown recovery equipment for all vehicles

Our Corporate Services

- High or low profile security solutions and packages for corporate and key personal threats, suitable for client's specific needs, preferences and perceived threat levels
- Full turn-key security solutions from initial risk management consultancy through to strategic and operational implementation
- Disaster recovery planning and execution
- Personnel with basic training in security and counter-terrorist tactics in addition to ongoing site specific training
- Security planning and surveys through continuous presence of patrol units in the vicinity of clients and a notification procedure of all unusual occurrences
- Business intelligence and investigative services
